EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Edward Gordon on February 14, 2008.

The application has been amended as follows:

Claim 35 has been amended as follows:

35. (currently amended) A method, comprising:

receiving a first mobile node's location and velocity from the first mobile node via a non-optical channel;

pointing a steerable optical aperture towards the first mobile node based on the received location and velocity;

receiving the first mobile node's acceleration from the first mobile node via the non-optical channel, where pointing the optical aperture towards the first mobile node is further based on the received acceleration; and

communicating with the first mobile node using an optical channel via the steerable optical aperture.

Claim 37 has been cancelled.

In claim 38, "method of claim 37" has been changed to --method of claim 35--.

In claim 39, "method of claim 37" has been changed to --method of claim 35--.

Claim 41 has been amended as follows:

41. (currently amended) A method, comprising:

receiving a first mobile node's location and velocity from the first mobile node via
a non-optical channel;

pointing a steerable optical aperture towards the first mobile node based on the
received location and velocity;

where the steerable optical aperture is associated with a second mobile node
and where the method further comprises:

transmitting the second mobile node's location and velocity from the second
mobile node to the first mobile node via the non-optical channel;

receiving data from the first mobile node using the optical channel; and

communicating with the first mobile node using an optical channel via the
steerable optical aperture.
